Engineering Index (EI)

Journals with high impact factor
Impact Factor

A = the number of times articles published in 2006 and 2007 were cited by indexed journals during 2008

B = the total number of "citable items" published by that journal in 2006 and 2007

2008 impact factor = A/B

Paper Preparation & Submission

Journal scope
Similarity of papers published
Journal review history
Do not ask the EIC’s informal opinion
Items Negatively Viewed by Editors

- Multiple Submissions
- Resubmissions
- Plagiarism*

*automated plagiarism detection software

Structure of a Quality Paper

- Clear and succinct introduction
- Don’t make generic comments
- Provide a short survey of the literature
- Identify what is new in your paper
- Provide experimental/analytical results
- Conclusion must be a conclusion, not a summary
- Very short author bio if space is limited
Thank you
